

OUR MISSION

Nurturing enterprising professionals for the economy through education and training

OUR VISION

Connecting Minds, Unlocking Talents and Creating Value

OUR VALUES

We are guided by these commitments:

- Valuing our People
- Upholding Quality & Excellence
- Fostering Innovation & Enterprise
- Serving Our Community & Society

OUR QUALITY POLICY

We are committed to total organisational excellence through creativity, innovation and continuous improvement in our systems, processes and services.

We constantly anticipate and aim to exceed our customer's expectations and requirements.

SCHOOL OF INTERDISCIPLINARY STUDIES 305**GET ACADEMY 307**

PRINCIPAL'S MESSAGE

Dear Student,

To match diverse career aspirations and industry demand, Ngee Ann Polytechnic offers a wide array of 48 full-time diplomas covering areas such as business, engineering, technology, life and health sciences, media, humanities and the social sciences.

Our diplomas are founded on a broad-based curriculum with multiple learning pathways. Our cross-disciplinary electives encourage you to explore beyond your core discipline and expand your skill sets and knowledge. Our local and overseas industry links provide you with abundant opportunities for internships and industry-based projects. You will get to apply your knowledge and hone your skills in the real world. Upon graduation, you will be career-ready.

Our emphasis on overseas exposure will broaden your perspectives on global issues. Every Ngee Ann student will have the chance to participate in at least one overseas-based programme. Whether it is an internship, study trip, immersion programme, community service project or leadership training, your stint abroad will enrich and deepen your learning experience.

We invest heavily to nurture talent. Besides academic achievements, our scholarships and awards recognise students with talent and passion in sports, the arts and community leadership. Our flagship talent development programme, The Christeara Programme, serves as a platform for our students to hone critical thinking and leadership skills.

We have a number of schemes to meet the needs of students who require financial help. A host of bursaries, student aid grants, loan schemes and overseas trip subsidies are made available to ensure that no Ngee Ann Polytechnic student will be deprived of a good and well-rounded education because of financial difficulties.

Life on the Ngee Ann campus is vibrant and rich. There are more than 100 clubs and societies for students to choose from. You are encouraged to take up an interesting pursuit to enrich your campus life and build a network of friends.

In this prospectus, you can read up about our diplomas, facilities and activities. I hope you will find the prospectus useful and I look forward to welcoming you to Ngee Ann Polytechnic.

With our best wishes,

CHIA MIA CHIANG
PRINCIPAL
NGEE ANN POLYTECHNIC

ABOUT NGEE ANN

Ngee Ann Polytechnic (NP) has come a long way since it was inaugurated as Ngee Ann College in 1963 with only 116 students. From these humble beginnings, NP has grown tremendously to become one of the premier institutions of higher learning in Singapore today.

The Polytechnic now boasts of over 16,000 full-time students and about 2,000 part-time students in addition to a vibrant alumni community of more than 120,000. It offers students a total of 48 full-time diplomas through its eight academic schools:

- School of Business & Accountancy
- School of Engineering
- School of Film & Media Studies
- School of Health Sciences
- School of Humanities & Social Sciences
- School of InfoComm Technology
- School of Interdisciplinary Studies
- School of Life Sciences & Chemical Technology

Here at Ngee Ann, we are known for our pioneering spirit. After all, we started a broad-based and multidisciplinary approach to learning. We also became the first institution of learning to have a truly wireless campus.

Learning takes place amid a caring and conducive environment with state-of-the-art facilities. From broadcast, multimedia and animation studios, to research laboratories, and simulation and technology centres, students benefit from a world-class learning environment equipped with the latest technologies.

Ngee Ann has established two Centres of Innovation (COIs) – in Environmental & Water Technology and Marine & Offshore Technology – and together with leading industry players, we offer our students an excellent platform to work on collaborative research and industry projects. The COIs' strong technology development and application capabilities also give local small and medium enterprises a leg up in their business expansion.

CORPORATE AWARDS

In our drive to provide a rich and holistic learning experience for our students, NP constantly strives for organisational excellence.

In recognition of our efforts, the Polytechnic has received the following awards:

Public Service Milestone Award, conferred by the Public Service Division, recognises public sector agencies that have attained key milestones in their journey towards organisational excellence. To qualify for the award, agencies must have attained the Singapore Quality Class standard and at least two class-level standards such as the ISO 9001 accreditation and the People Developer Standard. The award is presented every three years and NP last received it in FY 2009.

Singapore Quality Class Award is a certification administered by SPRING Singapore for meeting the overall business excellence standard based on an internationally benchmarked business excellence framework. The award is a fitting recognition of NP's track record as a forward-looking, responsive, dynamic and customer-oriented organisation.

People Developer Award is the certification administered by SPRING Singapore in recognition of the Polytechnic's commitment to bringing out the best in its people to achieve institutional results.

ISO 9001:2008 accreditation is the universally recognised international certification that endorses NP's systems and processes for innovation and the delivery of a quality education.

THE UNIQUE LEARNING EXPERIENCE

Our students enjoy a holistic education that goes beyond textbooks and across geographic boundaries. We develop their mind, body and soul, and equip them with skills and knowledge that make them global-smart and future-ready.

Ngee Ann Learning Model

In 2001, NP became one of the first institutions of higher learning to articulate a broad-based and multidisciplinary approach to learning. The Ngee Ann Learning Model (NLM) was developed with the understanding that Singapore's knowledge-based economy requires well-rounded, employable individuals with both hard and soft skills.

Under the NLM, students can choose from some 65 elective modules in areas such as communication, innovation and enterprise, culture and communication, personal mastery, arts and humanities, business, science and technology, and design. These modules make up 15 percent of the curriculum and are offered by the School of Interdisciplinary Studies.

The NLM produces graduates who can apply their knowledge and skills in a variety of settings and be at ease in an increasingly complex and globalised economy.

Innovation and Enterprise

NP has various programmes and incentive schemes such as Entrepreneurs-Connect@NP and EnterpriZel Scheme to nurture the entrepreneurial spirit among students and help them realise their business ideas by providing support, even while they are still on campus.

The polytechnic recently set up Ideawerkz, an innovation incubator, where students can turn their ideas into reality. Students can use Ideawerkz's multiple resources for generating ideas, for holding meetings or brainstorming sessions, or for interacting with like-minded innovators. Staff mentors are also available

to help students develop their concepts, source for industry partners and commercialise their innovations.

Diploma Plus Programme

At NP, we offer the Diploma Plus Programme to prepare students for a university education and their careers. Students can broaden their knowledge beyond their core disciplines or deepen their understanding of discipline-specific areas.

The programme is particularly useful for engineering students as it allows them to break away from the limitations of the traditionally structured approaches that are usually offered by other engineering schools. At NP, our engineering students can choose non-engineering options such as Leisure and Retail Management, giving them a leg-up in the fast-growing service and business sectors.

Workplace Internships

As a polytechnic with an edge in applied learning, NP offers students invaluable exposure to real-world job experiences through workplace internships.

Students are given practical training in situations that campus training cannot simulate, allowing them to apply their knowledge and skills in actual job settings while gaining work experience and confidence.

These internships may take place locally or overseas with established industry players. For overseas internships, students are posted to relevant organisations in countries such as Australia, China, France, Finland, Germany, Indonesia, New Zealand, South Africa, Taiwan, Thailand, the United Kingdom, and the United States.

Every Ngee Ann student will get to participate in at least one overseas-based programme

Overseas Exposure

Unique to NP is the opportunity for every student to go on at least one overseas stint through internships, immersions, exchange programmes, study trips or community service trips. These experiences not only enhance classroom learning, but also allow our students to develop a global mindset to prepare them for a globalised future.

To enhance the learning in some of our diploma courses, an Overseas Immersion Programme (OIP) is built into the course structure. Typically, students spend one semester in a foreign country, where they not only take classes at a reputable university but also experience day-to-day life in a new culture.

Such experiences serve to widen their knowledge of the economic, political and social aspects of their host country and allow them to gain a deeper understanding of cross-cultural communication.

Wireless Learning

NP was the first local institution of higher learning to have a wireless campus. This means that students can log on to our Mobile eLearning platform (MeL) via their laptops to review class schedules, conduct self-study, hand in their assignments or seek guidance from lecturers online – anytime, anywhere. Rental of laptops

and interest-free loans for laptop purchase are available for anyone in need.

Sports & Wellness

The Sports & Wellness module is part of Ngee Ann's Life Skills curriculum in the first year. Students can opt for one of the many electives offered, ranging from football to dance sports and lifesaving.

Students enjoy hands-on experience in areas like club management and event organisation, and advanced training for those going further in a particular sport. They also enjoy access to a variety of Co-Curricular Activities (CCAs) ranging from cultural clubs to special interest groups.

Further Studies

An NP education is a credible path to a university degree. In 2011, 52 percent of NP graduates went on to pursue a university education immediately after graduation or national service completion and 67 percent do so within five years. The NP diploma is well-recognised among local and overseas universities which typically offer our graduates exemptions and advanced standing of one to two years.

In addition, prestigious foreign university degrees are now available on campus, complete with advanced standing and subsidised fees for NP graduates.

The Singapore Institute of Technology (SIT) is partnering local polytechnics to offer degree programmes customised for polytechnic graduates. SIT is offering degree programmes in the areas of Engineering & Applied Sciences, Health Sciences, Design, Interactive Digital Media and Hospitality.

CLUBS & SOCIETIES

NP offers our students more than 100 Co-Curricular Activities (CCAs), divided into five categories: Academic Societies, Community Service Groups, Cultural & Arts Groups, Special Interest Groups and Sports Clubs.

Academic Societies

- Business & Accountancy Society
- Building & Environment Society
- Electrical Engineering Society
- Electronic & Computer Engineering Society
- Film & Media Studies Society
- Health Sciences Society
- HMS Society
- Information & Communication Technology Society
- Life Sciences & Chemical Technology Society
- Mechanical Engineering Society
- NP Students' Union

Community Service Groups

- BP-NP Mentoring Club
- Environmental Rangers Club
- Hearing-Impaired (Hil) Club
- Leo Club
- NP BB Primers Club
- Red Cross Humanitarian Network Club
- Rotaract Club
- Wheelpower Club
- NYAA Club

Culture & Arts Groups

- Percussion Club (Baracuda Batucada)
- Contemporary Dance Club (D3)
- Chinese Dance Club (Dance Group)
- Chinese Drama Club (Stage Art Group)
- Chinese Orchestra Club
- Concert Band Club
- DanceSport Club
- Dragon and Lion Dance Club
- English Drama Club (Poly Stage Factor)
- Entertainers' Club
- French Cultural Club
- Hip Hop Club (New Revolving Age)
- Indian Cultural Society
- Japanese Cultural Club
- Korean Cultural Club
- Malay Cultural Club
- Photography Club
- Piano Club (Klavierensemble)
- Song Composing Club
- Stage Production Club (Poly Stage Production)
- Strings Club
- Voices Club

Special Interest Groups

- Astronomy Club
- Board Games Club
- Buddhist Society
- Campus Crusade for Christ
- Catholic Youth Apostolate
- Chess Club
- Christian Fellowship
- Computer Club
- Current Affairs Club
- Debating Club
- Muslim Students' Society
- Radio Control Club
- Science Fusion Club
- Shooting Club
- Student Entrepreneurship Club
- The Navigators
- Toastmasters Club
- Uniform Groups Club

Sports Clubs

- Aerobics Club
- Aikido Club
- Archery Club
- Badminton Club
- Basketball Club
- Bowling Club
- Canoeing Club
- Cheerleading Club (Magnum Force)
- Cycling Club
- Divers Club
- Dragon Boat Club
- Fencing Club
- Floorball Club
- Football Club
- Fitness Focus Club
- Futsal Club
- Hockey Club
- Inline Skating Club
- Judo Club
- Kungfu Club
- Lifeguard Club
- Netball Club
- Ninja-Do (Kitagaryu) Club
- NP Outward Bounders Club
- Rhino Rugby Club
- Sailing Club
- Sepak Takraw Club
- Shitoryu Karate Club
- Silat Club
- Softball Club
- Squash Club
- Students' Sports Club
- Swimming Club
- Table Tennis Club
- Taekwondo Club
- Tchoukball Club
- Tennis Club
- The Adventure Seekers Club
- Touch Rugby Club
- Track & Field Club
- Ultimate Frisbee Club
- Volleyball Club
- Water Polo Club
- Wushu Club
- X-Ventures Club

CAMPUS FACILITIES

NP is spread over 35.4 hectares at the fringe of the Bukit Timah residential district.

Makan Place is one of three air-conditioned food courts on campus

Eateries

A selection of convenient eating places is available on campus. There are now three fully air-conditioned food courts – Makan Place which is located near the School of Film & Media Studies, Canteen 4 near the Mechanical Engineering Block, and Munch which is located at Seventy3. There is another canteen offering an excellent variety of Western and Asian fare at reasonable prices. Students can also take their pick from F&B outlets at the Atrium, an Internet café-cum-bubble tea outlet at the Library and restaurants at Ngee Ann's Alumni Clubhouse.

Sports Facilities

To promote a healthy and active lifestyle, NP offers an array of sporting amenities, including tennis courts, badminton courts, squash courts, a football field and a street soccer court. In 2008, Ngee Ann unveiled an Adventure Park at Kismis Avenue where students can try their hand at rock climbing and abseiling or take a ride on the Flying Fox or Parafan. Come 2012, students can use our new indoor basketball courts, as well as an Olympic-sized swimming pool, training pool, several gymnasiums and complete stadium facilities at our refurbished sports complex.

Seventy3

Refurbished in 2010, Block Seventy3 houses a 400-seater performance theatre, music and dance studios as well as club rooms for the various CCA groups. It is also home to NP's newest air-conditioned food court Munch.

Studio27

Studio27 encapsulates NP's vision of a lifestyle studio-based learning environment. Spanning over 460sqm of floor space, Studio27 includes cutting-edge technologies and facilities for experimental content creation, gaming and training as well as informal spaces for student collaboration. Here, students can also gain valuable skills with a slate of gaming and animation, video and mobile events and educational workshops.

OurSpace@72

This sprawling air-conditioned space at Block 72 serves as a student lounge where students can study and socialise. With its cool space-age meets retro design influence, this is the hottest space on campus to see and be seen.

The Attic

Opened in 2010, this new rooftop lounge is a welcome respite for students looking for a cool and cosy space to unwind or hold project discussions. Located at Block 53, Level 8, the Attic boasts chic and modern furniture and comfortable sofas.

Convention Centre

Located at the heart of the Ngee Ann campus, the modern Convention Centre houses a two-tier auditorium with a seating capacity of 1,800. It is an ideal choice for seminars, exhibitions, talks, cultural events, workshops and conferences. The Centre also boasts four lecture theatres.

Teaching Hub

The Teaching Hub is part of the 'green lung' of the campus that creates a fresh, leafy environment conducive to both work and play. Amidst soothing greenery, students can relax by the eco-pond and catch the sunset or study with friends.

The Green Mall

Students who want to get away from all the hustle and bustle can chill out at the Green Mall, sprawled

across the second floor of Blocks 27 and 31. Beautifully designed stone landscapes, rustic wooden structures and lush fauna exude a distinct Zen ambience found nowhere else on campus.

Student Plaza

While waiting for the bus to get home, or just hanging out with friends, students can unwind and relax at our Student Plaza. Conveniently located by the school gates, it lets students bask under beautifully designed shelters beside the calming cascading water of the fountain walls. Complete with a Cheers convenience store, a street soccer court and a multi-purpose field, the Plaza is a bustling meeting place for students.

Optometry Centre

NP's Optometry Centre, which has the latest state-of-the-art equipment, is managed by Optometry lecturers and students from the School of Health Sciences. Located at Block 6, the centre offers eye examination services as well as prescribes and sells glasses and contact lenses to the public. Consultation fees at the Optometry Centre are charged at a discounted rate.

Consumer Co-operative

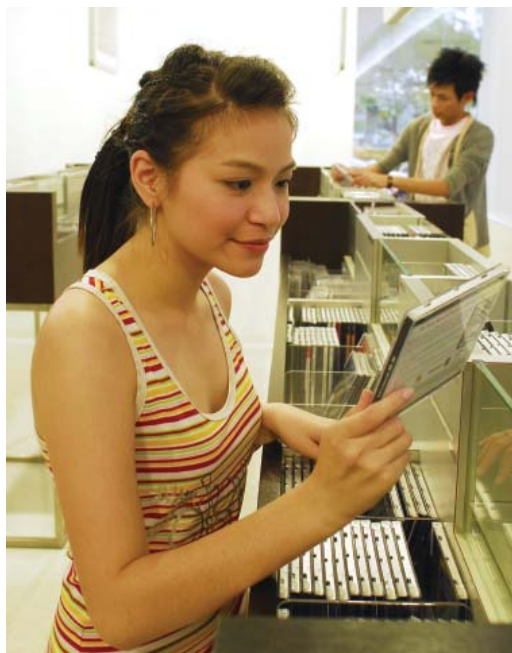

The Consumer Co-operative Society Limited (NP Co-op) manages several outlets on campus that offer everything from stationery to snacks. They also provide computer and postal services.

Other Amenities

For basic banking needs, there are three Automated Teller Machines (ATMs) on campus. A POSB/DBS Bank ATM is located at the Atrium (Block 1) while OCBC and UOB ATMs are located at Makan Place (Block 51). EZLink cards can be topped up at the basement of the Convention Centre. Bills can be paid electronically using the SAM and AXS machines located at the atrium. Photocopying, faxing, binding and laminating services can be found at the Library and Block 83.

LIEN YING CHOW LIBRARY

Ngee Ann's contemporary library plays a central role in the campus life of all students. It is a haven that brings students and staff together for work, study and play. NP's Lien Ying Chow Library is not just a library. For many, it has become a home away from home.

Lifestyle Library

With its modern decor and soothing environment, the Lifestyle Library caters to personal, social and recreational needs.

Students can browse through materials categorised under 16 subject clusters ranging from Lifeskills, Hobbies, Sports, Travel, and Entertainment to Fiction and Comics.

They can also listen to music while reading the latest magazines, or watch movies, documentaries and lifestyle videos at the Video Zone.

Programmes from Channel NewsAsia, Discovery Channel, Discovery Travel & Living, History, National Geographic and MediaCorp's free-to-air channels provide students with another dimension of knowledge to expand their horizons.

The Lifestyle Library also features an Internet Café, where students can surf the Net while enjoying a cup of bubble tea, as well as a Board Games Room where games such as Monopoly, Risk, Blokus and Scrabble help students develop their creativity, sharpen their minds, improve their vocabulary and exercise their problem-solving skills.

Academic Library

The Academic Library, located over the next three floors, caters to academic needs and features an extensive collection of print, media and e-resources.

Preparing Students for Success

To add value to students' learning experience, a Wealth Creation InfoCentre and a Virtual Investment Room were set up in 2008. By developing students' financial literacy and investment skills, the facilities aim to groom students to become prudent and confident investors.

Here, students can access a comprehensive range of books, periodicals and media covering personal finance, financial planning, portfolio management, stocks & shares and real estate investments. Students are also provided with ample opportunities for hands-on practice using simulated investment programs and financial databases/resources such as Bloomberg Financial Services. Regularly, speakers from the industry are invited to give talks on money management and investment.

The Library also features the Lien Ying Chow Gallery – built to commemorate one of NP's significant founders. It showcases story panels highlighting Dr Lien's rags-to-riches story, his legendary business acumen, services to the country, commitment to education and passion for community service. Students may also browse through a good collection of titles on successful Asian entrepreneurs, pioneers of Singapore, philanthropy, and the Chinese diaspora. These are aimed at inspiring our students to emulate Dr Lien's admirable qualities such as perseverance, tenacity, philanthropy and humility, fire their spirit of entrepreneurship, and inspire them to achieve their own greatness and give back to society.

Electronic Resources

The resources offered by the Lien Ying Chow Library extend beyond its walls. Via the Library Homepage,

students and staff are able to access a range of eDatabases, eBooks, eJournals and Web resources. These resources are available 24x7 and even beyond campus.

Locating resources for assignments and projects has become a breeze with Library's state-of-the-art OPAC incorporating Web 2.0 functionalities, social networking and intelligent search features. It provides a one-stop solution for the discovery and delivery of information from a variety of local and remote services.

Services

Through OPAC, users may also check on their library loans, reserve materials, renew loans, and even book Discussion Rooms. A library iPhone application available on Apple iTunes enables students on the go to have access to the Library's range of resources, services anytime, anywhere. Students may also learn about library developments and interact with librarians through Facebook and Twitter.

Self-service stations and e-payment kiosks allow users to borrow and return materials as well as conduct any financial transactions in a cashless environment.

Professional staff handle information enquiries, guide students in the use of library resources and databases, conduct research skills training as well as provide academic liaison and support to lecturers.

Opening Hours

During Term

Mon - Fri: 8.00am - 9.00pm
Sat: 8.30am - 5.00pm*

During Vacation

Mon - Fri: 8.30am - 5.30pm
Sat: 8.30am - 1.00pm

The Library is closed on Sundays and Public Holidays.

* Closes at 1pm on the last Saturday of the term.

ACADEMIC CALENDAR 2012

April 2012 Semester 1

Teaching Weeks	16 Apr 2012 - 10 Jun 2012	8 Weeks
Break	11 Jun 2012 - 24 Jun 2012	2 Weeks
Teaching Weeks	25 Jun 2012 - 12 Aug 2012	7 Weeks
Study & Examination Weeks	13 Aug 2012 - 26 Aug 2012	2 Weeks
Vacation	27 Aug 2012 - 14 Oct 2012	7 Weeks

October 2012 Semester 2

Teaching Weeks	15 Oct 2012 - 16 Dec 2012	9 Weeks
Break	17 Dec 2012 - 31 Dec 2012 [#]	2 Weeks
Teaching Weeks	2 Jan 2013 - 10 Feb 2013*	6 Weeks
Study & Examination Weeks	11 Feb 2013 - 24 Feb 2013	2 Weeks
Vacation	25 Feb 2013 - 14 Apr 2013	7 Weeks

[#] The break week will be extended to 31 Dec 2012 and the teaching week for term 2 will start on 2 Jan 2013, Wednesday.

* As the Chinese New Year Day falls on Sunday, 10 Feb 2013 and Mon, 11 Feb 2013, the next day, Tues 12 Feb 2013 is a Public Holiday.

SHUTTLE BUS SERVICES

The Ngee Ann Shuttle Bus Service is a free service provided by NP for its students and aims to help students get to classes on time during the morning peak hours. The service operates from Mondays to Fridays during the academic term and has five different routes:

Ang Mo Kio Service Route

Pick up point: Ang Mo Kio MRT Station
(bus stop opposite Jubilee)

Operation hours: 6.50am – 7.50am

Clementi Service Route

Pick up point: Clementi MRT Station
(opposite Clementi Mall)

Operation hours: 7.25am – 8.35am

Hougang Service Route

Pick up point: Hougang Bus Interchange,
Berth 5

Operation hours: 6.50am – 7.50am

Tampines Service Route

Pick up point: Tampines Bus Interchange,
Berth A1

Operation hours: 6.50am – 7.50am

Woodlands Service Route

Pick up point: Woodlands Regional
Interchange, Berth 14

Operation hours: 6.50am – 8.05am
