OUR MISSION
Nurturing enterprising professionals for the economy through education and training

OUR VISION
Connecting Minds, Unlocking Talents and Creating Value

OUR VALUES
We are guided by these commitments:
• Valuing Our People
• Upholding Quality & Excellence
• Fostering Innovation & Enterprise
• Serving Our Community & Society

OUR QUALITY POLICY
We are committed to total organisational excellence through creativity, innovation and continuous improvement in our systems, processes and services.

We constantly anticipate and aim to exceed our customer’s expectations and requirements.

Dear Student,

To match diverse student aspirations and industry demand, Ngee Ann Polytechnic’s eight academic schools offer 48 full-time courses that cover areas such as business, design, engineering, health and life sciences, humanities and social sciences, and media and technology.

Our broad-based curriculum offers flexible learning pathways and specialisations that will help to open doors to multiple career options and academic progression opportunities.

Through real-world exposure and industry-based projects, you will gain relevant experience that will be valued by prospective employers. The Ngee Ann Learning Model seeks to create an opportunity for every student to gain overseas exposure. Whether it is an internship, immersion, study trip or community programme, the overseas experience will broaden your outlook and prepare you well for a globalised workplace.

We have created a campus environment that is conducive for you to study and play in. To enrich your life on campus and build a network of friends, you can take up a sport or join an interest group. We have a rich array of 120 student clubs and societies for you to choose from.

We have prepared this prospectus to provide you with essential information on a Ngee Ann Polytechnic education, and we look forward to welcoming you into our family.

With our best wishes,

CHIA MIA CHIANG
PRINCIPAL
NGEE ANN POLYTECHNIC
Ngee Ann Polytechnic (NP) has come a long way since it was inaugurated as Ngee Ann College in 1963 with only 116 students. From these humble beginnings, NP has grown tremendously to become one of the premier institutions of higher learning in Singapore.

Today, the polytechnic’s full-time student enrolment has reached almost 16,500 and its alumni community has grown to more than 130,000. It offers students a total of 48 full-time courses through its eight academic schools:

- School of Business & Accountancy
- School of Design & Environment
- School of Engineering
- School of Film & Media Studies
- School of Health Sciences
- School of Humanities & Social Sciences
- School of InfoComm Technology
- School of Life Sciences & Chemical Technology

As part of the Ngee Ann Learning Model to provide a broad-based education, the polytechnic also offers diverse interdisciplinary modules through its School of Interdisciplinary Studies.

Learning takes place amid a caring and conducive environment with state-of-the-art facilities. From broadcast, multimedia and animation studios, to research laboratories, and simulation and technology centres, students benefit from world-class learning environment equipped with latest technologies.

Ngee Ann has established two Centres of Innovation (COIs) – in Environmental & Water Technology and Marine & Offshore Technology – and together with industry players, we offer our students an excellent platform to work on collaborative research and industry projects. The COIs’ strong technology development and application capabilities also give local small and medium enterprises a leg up in their business expansion.

To promote lifelong learning, Ngee Ann Polytechnic has also set up CET Academy to give adult learners the opportunity to upgrade their skills through a wide range of part-time programmes.
In our drive to provide a rich and holistic learning experience for our students, NP constantly strives for organisational excellence.

In recognition of our efforts, the Polytechnic has received the following awards:

**Public Service Milestone Award**, conferred by the Public Service Division, recognises public sector agencies that have attained key milestones in their journey towards organisational excellence. To qualify for the award, agencies must have attained the Singapore Quality Class standard and at least two class-level standards such as the ISO 9001 accreditation and the People Developer Standard. The award is presented every three years and NP last received it in FY 2009.

**Singapore Quality Class Award** is a certification administered by SPRING Singapore for meeting the overall business excellence standard based on an internationally benchmarked business excellence framework. The award is a fitting recognition of NP’s track record as a forward-looking, responsive, dynamic and customer-oriented organisation.

**People Developer Award** is the certification administered by SPRING Singapore in recognition of the Polytechnic's commitment to bringing out the best in its people to achieve institutional results.

**ISO 9001:2008 accreditation** is the universally recognised international certification that endorses NP’s systems and processes for innovation and the delivery of a quality education.

---

**CORPORATE AWARDS**

---

**THE UNIQUE LEARNING EXPERIENCE**

Our students enjoy a holistic education that goes beyond textbooks and across geographic boundaries. We develop their mind, body and soul, and equip them with skills and knowledge that make them global-smart and future-ready.

**Nghee Ann Learning Model**

In 2001, NP became one of the first institutions of higher learning to articulate a broad-based and multidisciplinary approach to learning. The Nghee Ann Learning Model (NLM) was developed with the understanding that Singapore’s knowledge-based economy requires well-rounded, employable individuals with both hard and soft skills.

Under the NLM, students can choose from some 65 elective modules in areas such as communication, innovation and enterprise, culture and communication, personal mastery and development, arts and humanities, business, design, and science and technology. These modules make up 15 percent of the curriculum and are offered by the School of Interdisciplinary Studies.

The NLM produces graduates who can apply their knowledge and skills in a variety of settings and be at ease in an increasingly complex and globalised economy.

**Innovation & Enterprise**

NP has various programmes and incentive schemes such as Entrepreneurs-Connect@NP and EnterpriZe! Scheme to nurture the entrepreneurial spirit among students and help them to realise their business ideas by providing support, even while they are still on campus.

Ideawerkz, the polytechnic’s innovation incubator is a place where students can turn their ideas into reality.

Students can use Ideawerkz’s multiple resources for generating ideas, for brainstorming sessions, or interacting with like-minded innovators. Staff mentors are also available to help students develop their concepts, source for industry partners and commercialise their innovations.

**Diploma Plus Programmes**

At NP, we offer the Diploma Plus Programme to prepare students for a university education and their careers. Students can broaden their knowledge beyond their core disciplines or deepen their understanding of discipline-specific areas.

The programme is particularly useful for engineering students as it allows them to break away from the limitations of the traditionally structured approaches that are usually offered by other engineering schools. At NP, our engineering students can choose non-engineering options such as Business, which gives them a basic understanding of the environment in which a business operates, and the management of a business and its critical resources.

**Workplace Internships**

As a polytechnic with an edge in applied learning, NP offers students invaluable exposure to real-world job experiences through workplace internships.

Students are given practical training in situations that campus training cannot simulate, allowing them to apply their knowledge and skills in actual job settings while gaining work experience and confidence.

These internships may take place locally or overseas with established industry players. For overseas internships, students are posted to relevant organisations in countries such as Australia, China, France, Finland, Germany, Indonesia, New Zealand, South Africa, Taiwan, Thailand, the United Kingdom, and the United States.
CLUBS & SOCIETIES

NP offers our students about 120 Co-Curricular Activities (CCAs), under six categories: Arts & Cultural, Community Service, Special Interests & Martial Arts, Sports, Students Union, and Academic Societies.

Arts & Cultural
- Arts Appreciation Club
- Broadcast TV Production Club
- Chinese Drama Club
- English Drama Club
- Entertainers Club
- Photography Club
- Stage Production Club
- Chinese Calligraphy Club
- Dragon and Lion Dance Club
- French Cultural Club
- Indian Cultural Society
- Japanese Cultural Club
- Korean Cultural Club
- Malay Cultural Club
- Spanish Cultural Club
- B-Boys Club
- Chinese Dance Club
- Contemporary Dance Club
- DanceSport Club
- Hip Hop Club
- Chinese Orchestra Club
- Concert Band Club
- Percussion Club
- Piano Club
- Song Composing Club
- Strings Club
- Voices Club

Community Service
- BP-NP Mentoring Club
- Environmental Rangers Club
- Food Aid Club
- Hearing-Impaired (HI) Club
- Leo CLUB
- NP BB Primers Club
- Red Cross Youth Club
- Rotaract Club
- Wheelpower Club

Overseas Exposure
Unique to NP is the opportunity for every student to go on at least one overseas stint through internships, immersions, exchange programmes, study trips or community service trips. These experiences not only enhance classroom learning, but also allow our students to develop a global mindset to prepare them for a globalised future.

To enhance the learning in some of our diploma courses, an Overseas Immersion Programme (OIP) is built into the course structure. Typically, students spend one semester in a foreign country, where they not only take classes at a reputable university but also experience day-to-day life in a new culture.

Such experiences serve to widen their knowledge of the economic, political and social aspects of their host country and allow them to gain a deeper understanding of cross-cultural communication.

Wireless Learning
NP was the first local institution of higher learning to have a wireless campus. This means that students can log on to our Mobile eLearning platform (MeL) via their laptops to review class schedules, conduct self-study, hand in their assignments or seek guidance from lecturers online – anytime, anywhere. Rental of laptops and interest-free loans for laptop purchase are available for anyone in need.

Sports & Wellness
The Sports & Wellness module is part of Ngee Ann’s Life Skills curriculum in the first year. Students can opt for one of the many electives offered, ranging from football to dance sports and lifesaving.

Students enjoy hands-on experience in areas like club management and event organisation, and advanced training for those going further in a particular sport. They also enjoy access to a variety of Co-Curricular Activities (CCAs) ranging from cultural clubs to special interest groups.

Further Studies
An NP education is a credible path to a university degree. 56 percent of NP graduates went on to pursue a university education immediately after graduation or national service completion and 69 percent do so within five years. The NP diploma is well-recognised among local and overseas universities which typically offer our graduates exemptions and advanced standing of one to two years.

In addition, prestigious foreign university degrees are now available on campus, complete with advanced standing and subsidised fees for NP graduates.

The Singapore Institute of Technology (SIT) partners local polytechnics and renowned overseas universities to offer degree programmes customised for polytechnic graduates. SIT is offering 24 degree programmes in the areas of Engineering & Applied Sciences, Health Sciences, Design, Interactive Digital Media, Education and Hospitality.
Special Interests & Martial Arts
- Aikido Club
- Ju-Jitsu Club
- Judo Club
- Muaythai Club
- Ninja-Do Kitagaryu Club
- Shitoryu Karate Club
- Siat Club

- Life Sciences and Chemical Technology
- Mechanical Engineering

CAMPUS FACILITIES

NP is spread over 35.4 hectares at the fringe of the Bukit Timah residential district.

Eateries
A selection of convenient eating places is available on campus. There are now four fully air-conditioned food courts – Makan Place, Canteen 4, Munch and Poolside. Students can also take their pick from F&B outlets at the Atrium, an Internet café-cum-bubble tea outlet at the Library and restaurants at Ngee Ann’s Alumni Clubhouse. There is also a Saka Sushi outlet at Block 72.

Sports Facilities
To promote a healthy and active lifestyle, NP offers an array of sporting amenities, including tennis courts, badminton courts, squash courts, a football field and a street soccer court. In 2008, Ngee Ann unveiled an Adventure Park at Kismis Avenue where students can try their hand at rock climbing and abseiling or take a ride on the Flying Fox or Parafan. Students can use our new indoor basketball courts, as well as an Olympic-sized swimming pool, training pool, several gymnasiums and complete stadium facilities at our recently refurbished sports complex.

Seventy3
Refurbished in 2010, Block Seventy3 houses a 400-seater performance theatre, music and dance studies as well as club rooms for the various CCA groups. It is also home to NP’s air-conditioned food court Munch.

Studio27
Studio27 encapsulates NP’s vision of a lifestyle studio-based learning environment. Spanning over 460sqm of floor space, Studio27 includes cutting-edge technologies and facilities for experimental content creation, gaming and training as well as informal spaces for student collaboration. Here, students can also gain valuable skills with a slate of gaming and animation, video and mobile events and educational workshops.

OurSpace@72
This sprawling air-conditioned space at Block 72 serves as a student lounge where students can study and socialise. With its cool space-age meets retro design influence, this is the hottest space on campus to see and be seen.

The Attic
Opened in 2010, this new rooftop lounge is a welcome respite for students looking for a cool and cosy space to unwind or hold project discussions. Located at Block 53, Level 8, the Attic boasts chic and modern furniture and comfortable sofas.

Convention Centre
Located at the heart of the Ngee Ann campus, the modern Convention Centre houses a two-tier auditorium with a seating capacity of 1,800. It is an ideal choice for seminars, exhibitions, talks, cultural events, workshops
and conferences. The Centre also boasts four lecture theatres.

Teaching Hub
The Teaching Hub is part of the ‘green lung’ of the campus that creates a fresh, leafy environment conducive to both work and play. Amisit soothing greenery, students can relax by the eco-pond and catch the sunset or study with friends.

The Green Mall
Students who want to get away from all the hustle and bustle can chill out at the Green Mall, sprawled across the second floor of Blocks 27 and 31. Beautifully designed stone landscapes, rustic wooden structures and lush fauna exude a distinct Zen ambience found nowhere else on campus.

Student Plaza
While waiting for the bus to get home, or just hanging out with friends, students can unwind and relax at our Student Plaza. Conveniently located by the school gates, it lets students bask under beautifully designed shelters beside the calming cascading water of the fountain walls. Complete with a Cheers convenience store, a street soccer court and a multi-purpose field, the Plaza is a bustling meeting place for students.

Optometry Centre
NP’s Optometry Centre, which has the latest state-of-the-art equipment, is managed by Optometry lecturers and students from the School of Health Sciences. Located at Block 6, the centre offers eye examination services as well as prescriptions and sells glasses and contact lenses to the public. Consultation fees at the Optometry Centre are charged at a discounted rate.

Consumer Co-operative
The Consumer Co-operative Society Limited (NP Co-op) manages several outlets on campus that offer everything from stationery to snacks. They also provide computer and postal services.

Other Amenities
For basic banking needs, there are two Automated Teller Machines (ATMs) on campus. A POSB/DBS Bank ATM is located at the atrium (Block 1) while an OCBC ATM is located at the basement of the Convention Centre. EZLink cards can also be topped up at the basement of the Convention Centre. Bills can be paid electronically using the SAM and AXS machines located at the atrium. Photocopying, faxing, binding and laminating services can be found at the Library, OurSpace@72 and Block 83.

LIEN YING CHOW LIBRARY
Ngee Ann’s contemporary library plays a central role in the campus life of all students. It is a haven that brings students and staff together for work, study and play. NP’s Lien Ying Chow Library is not just a library. For many, it has become a home away from home.

Lifestyle Library
With its modern decor and soothing environment, the Lifestyle Library caters to personal, social and recreational needs.

Students can browse through resources ranging from lifeskills, Hobbies, Sports, Travel, and Entertainment to Fiction and Comics.

They can also listen to music while reading the latest magazines, or watch movies, documentaries and lifestyle videos at the Video Zone.

Programmes from Channel NewsAsia, Discovery Channel, Discovery Travel & Living, History, National Geographic and MediaCorp’s free-to-air channels provide students with another dimension of knowledge to expand their horizons.

The Lifestyle Library also features an Internet Café, where students can surf the Net while enjoying a cup of bubble tea, or tap on a wide range of iPad apps to discover a new dimension of learning. They may also indulge in games such as Monopoly, Risk, Blokus and Scrabble in the Board Games Room to develop their creativity, sharpen their minds, improve their vocabulary and exercise their problem-solving skills.

Academic Library
The Academic Library, located over the next three floors, caters to academic needs and features an extensive collection of print, media and e-resources.

Preparing Students for Success
To add value to students’ learning experience, a Wealth Creation InfoCentre and a Virtual Investment Room were set up in 2008. By developing students’ financial literacy and investment skills, the facilities aim to groom students to become prudent and confident investors.

Here, students can access a comprehensive range of books, periodicals and media covering personal finance, financial planning, portfolio management, stocks & shares and real estate investments. Students are also provided with ample opportunities for hands-on practice using simulated investment programs and financial databases/resources such as Bloomberg Financial Services. Regularly, speakers from the industry are invited to give talks on money management and investment.

The Library also features the Lien Ying Chow Gallery – built to commemorate one of NP’s significant founders. It showcases story panels highlighting Dr Lien’s rags-to-riches story, his legendary business acumen, services to the country, commitment to education and passion for community service. Students may also browse through a good collection of titles on successful Asian entrepreneurs, pioneers of Singapore, philanthropy, and the Chinese diaspora. These are aimed at inspiring our students to emulate Dr Lien’s admirable qualities such as perseverance, tenacity, philanthropy and humility, fire their spirit of entrepreneurship, and inspire them to achieve their own greatness and give back to society.
Electronic Resources

The resources offered by the Lien Ying Chow Library extend beyond its walls. Via the Library’s homepage, students and staff are able to access a range of eDatabases, eBooks, eJournals and Web resources. These resources are available 24x7 and even beyond campus.

Locating resources for assignments and projects has become a breeze with Library’s state-of-the-art OPAC incorporating Web 2.0 functionalities, social networking and intelligent search features. It provides a one-stop solution for the discovery and delivery of information from a variety of local and remote services.

Services

Through OPAC, users may also check on their library loans, reserve materials, renew loans, and even book Discussion Rooms. A library iPhone application, available on Apple iTunes, allows students to access the Library’s range of resources, services anytime, anywhere. Students may also learn about library developments and interact with librarians through Facebook and Twitter.

Self-service stations allow users to borrow and return materials conveniently.

Professional staff handle information enquiries, guide students in the use of library resources and databases, conduct research skills training as well as provide academic liaison and support to lecturers.

Opening Hours

During Term
Mon - Fri: 8.00am - 9.00pm
Sat: 8.30am - 5.00pm*

During Vacation
Mon - Fri: 8.30am - 5.30pm
Sat: 8.30am - 1.00pm

The Library is closed on Sundays and Public Holidays.

* Closes at 1pm on the last Saturday of the term.

SHUTTLE BUS SERVICES

The Ngee Ann Shuttle Bus Service is a free service provided by NP for its students and aims to help students get to classes on time during the morning peak hours. The service operates from Mondays to Fridays during the academic term and has five different routes:

Ang Mo Kio Service Route
Pick up point: Ang Mo Kio MRT Station (bus stop opposite Jubilee)  
Operation hours: 6.50am – 7.50am

Clementi Service Route
Pick up point: Clementi MRT Station (opposite Clementi Mall)  
Operation hours: 7.25am – 8.35am

Hougang Service Route
Pick up point: Bus stop outside Hougang Interchange  
Operation hours: 6.50am – 7.50am

Tampines Service Route
Pick up point: Tampines Bus Interchange, Berth A1  
Operation hours: 6.50am – 7.50am

Woodlands Service Route
Pick up point: Woodlands Regional Interchange, Berth 14  
Operation hours: 6.50am – 8.05am
