

CORPORATE WORKSHOP IN THE DARK

Eighty percent of our perceptions are formed based on what we see. What happens within teams when there are no visual cues to rely on to accomplish the tasks set before them?

The 3-hour Corporate/Teambuilding Workshop in the Dark removes teams and managers from familiar surroundings, pushes them out of their comfort zones, and challenges them in thought and action. In a totally dark space, teams complete assigned tasks within time limits. Without visual cues, participants are encouraged to embrace the dissonance, discover new ways of sense-making, and stretch their limits in communication, cooperation, trust and leadership.

LEARNING OUTCOMES

Participants will:

- Enhance communication skills and be encouraged to convey information mindfully and openly
- Appreciate the value of questioning assumptions to avoid miscommunication and conflict
- Exercise adaptability and flexibility to accomplish the tasks assigned to their teams during the programme
- Strengthen teamwork and trust

INTROSPECTIVE | MOTIVATING | ENLIGHTENING

"I liked that the program made us complete challenges within a certain time frame while switching around the "leader" role. We had to step out of our comfort zone and react quickly to different situations.

– Assistant General Manager, Panasonic

"This is the best team building session ever. It has taught me to think out of the box when we have limited resources, and to always listen to understand the situation, before taking any action."

– Chemist, Maritime and Port Authority of Singapore

MODE

In person

TARGET AUDIENCE

Adults
