Software Deployment

How to Turn off User Account Control

1. Click on Start and enter user account in the box as shown.

2. Select “Change User Account Control settings”.

3. Move the slider down to “Never notify” and click on Ok button.

When prompted “Do you want to allow the following program to make changes to this computer?”, click on Yes button.

Restart your computer when prompted or click on “Restart” for the changes to take effect.
