Benefits from connecting your personal LinkedIn Profile to LinkedIn Learning

Get learning recommendations tailored to your job title

You will be able to see what kind of courses others sharing your job are watching and also trending courses for your profession.

Share your certificates of completion on your LinkedIn account

People viewing your personal LinkedIn will be able to see what courses you have watched and completed.

Keep your LinkedIn Learning and personal LinkedIn account as linked or separate as you want it

NP's administrators will only be able to see your learning activity and basic LinkedIn information (i.e. name, title, photo) but not anything you do on LinkedIn.com, so your personal privacy is still safeguarded.

Your LinkedIn network will also only see whatever you have chosen to make public on your personal LinkedIn.
