

Implementation of Good Laboratory Practice

24 – 25 June 2019 | 9:00AM – 5:00PM

COURSE SYNOPSIS

The OECD principles of Good Laboratory Practice (GLP) sets out the requirements for the management of non-clinical studies and it provides standardization on the planning, recording, reporting, and monitoring processes within the organizations. The compilation of a GLP dossier is part of the required regulatory submission.

This course has been designed for laboratory professionals and regulatory affairs professionals from analytical, testing, diagnostics and other laboratories to deepen and strengthen their skills and knowledge in implementing OECD Principles of Good Laboratory Practice in their workplace.

TRAINER'S PROFILE

Ms Chin Poh Yin has more than 21 years of experience in accreditation and assessment practices. She currently works as a Singapore Accreditation Council (SAC) external lead assessor. She also serves as an adjunct lecturer in local polytechnics. As an evaluator for International Accreditation Communities of International Laboratory Accreditation Cooperation (ILAC) and Asia Pacific Laboratory Accreditation Cooperation (APLAC), Ms Chin is kept abreast with the latest developments in quality documentation and developments in the accreditation fraternity. With her many years of experience in assessing laboratories locally and overseas, Ms Chin will be able to share the best practices in the implementation of GLP.

WHO SHOULD ATTEND

This course is suitable for persons involved in:

- Laboratory Professionals (Laboratory Managers, Technologists)
- Researchers/Clinical Research Coordinators
