

4Sights

Developing empathy helps children to understand and respond to feelings of others with care. In a tech-driven world, empathy must be regarded as an essential skill that underpins a child's ability to be a big-hearted, global citizen.

Led by our blind facilitators, participants step into the world of the blind and embark on a journey of amazing discoveries. Through fun and interactive activities, they will learn valuable lessons about inclusion, empathy, resilience and confidence.

LEARNING OUTCOMES

Participants will

- Be instilled to have kindness towards marginalised communities in society from a young age.
- Be accepting and welcoming of all people, regardless of their differences.
- Learn to properly assist a vision-impaired individual and be encouraged to be helpful to others in need.

EDUCATIONAL | EXPLORATORY | PERCEPTIVE

"I want to thank all of you for a smooth programme and an enjoyable visit to DiD. All your staff were energetic and very interactive with the children. It was very enriching and the children learnt a lot from it. I especially appreciated giving every child the opportunity to try out the canes and that you got child sizes that fit them perfectly!"

– Teacher from St. James' Church Kindergarten

MODE

In person

TARGET AUDIENCE

Students

- Kindergarten to Primary 2 children

FACILITATORS

Blind facilitators from

Dialogue in the Dark Singapore
